## INTRODUCTION.

---

Feeling the need of a work of this description in the daily labors of his store, the Author was induced to commence the present compilation. At that time he had no idea of its publication, and it was only at the urgent request of many of his friends that he was finally induced to give his consent.

In the preparation of this work, he has endeavored to obtain not only all the Local or Common Names in use in the various sections of the United States, but also in Great Britain, and he trusts that but few, if any, have been overlooked.

In Part I, the Local Name generally adopted and used is put in *Italic*. In Part II, where there is more than one Botanical Name for the same Local Name, the correct one is italicised to distinguish it from the others.

The compilation has been prepared upon strictly Botanical Rules, and as far as the Author can ascertain from those who have critically examined the work, and who are fully competent to judge, it is accurate.

The result of his labors is now submitted to the Pharmacists of the United States, hoping that it may meet with their approbation, and be of service to them.

Respectfully,

ALLAN POLLOCK.

*New-York, September, 1872.*

## INTRODUCTION TO THE SECOND EDITION.

---

THE *first edition* of this work having been disposed of and the demand constantly increasing, the compiler has given it a *thorough revision*; corrected such errors as were in it, and made considerable additions. He now presents the Second Edition, hoping that it will be found satisfactory in every respect; at the same time he would tender thanks for the very liberal encouragement bestowed on the publication.

ALLAN POLLOCK.

*New York, July 1873.*

# JOHN COOPER & CO'S

## COLD EXPRESSED

# FLUID EXTRACTS

---

Our Fluid Extracts are made by macerating the Drug for ten days, and afterwards subjecting it to hydraulic pressure of over 500 tons. By this process we get a Fluid Extract of full official strength without loss of the volatile principles by heat or evaporation.

The strength of these Fluid Extracts is, with the one exception of F. E. Cinchona Calisaya, one troy ounce of drug to one fluid ounce of extract, or one grain of crude drug to one minim of extract.

We warrant the Extracts equal to the best in the market, and cheaper than any other make of equal strength.

Physicians and Druggists who have not used our preparations, and desiring to investigate them, will be sent samples free, if desired.

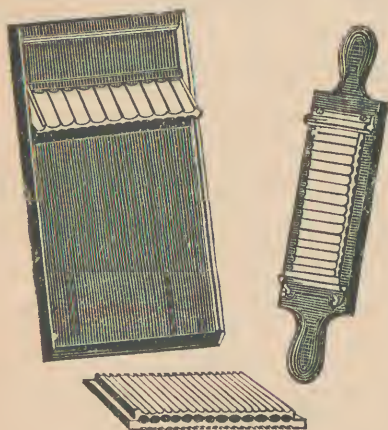

Price List sent on application, giving discount, &c.

---

WE ARE THE SOLE MANUFACTURERS OF THE

## COOPER PILL MACHINE.

Patent allowed August 15th, 1872.

This Machine gives the Druggist, in a compact form, at small expense, a Pill Cutter which makes the four different sizes of Pills, cutting 36 one-grain Pills, 24 two-grain Pills, 24 three-grain Pills, and 18 five-grain Pills. It has a mahogany base and handle.

Each Machine is warranted, and can be sent to any part of the United States or Canadas by express, C. O. D.

Price, \$15.00 net.

---

WILKESBARRE, Jan. 8, 1873.

I am well suited with the Pill Machine, and would not take three times its cost if I could not get another like it.

*All goods of our manufacture are kept strictly and invariably up to the highest standard.*

Our *Fluid Extracts* are made by the best processes known. We do not (as many claim) use the same apparatus for the manufacture of all Fluid Extracts, but adapt the apparatus and mode of manufacture to the nature and character of the Drug.

In the manufacture of *Sugar-Coated Pills*, we use nothing in the coating but Pure Double-Refined Sugar; and deprecate, as highly injurious, all such insoluble substances as Terra Alba, White Wax, &c. We coat our Pills while the mass is quite soft, thus rendering them readily soluble in the stomach.

*We manufacture and Sugar-Coat Pills to order in quantities of 3000 and upwards.*

*Price Lists and Discounts of our Preparations will be gladly furnished upon application.*

## TESTIMONIALS.

NEW MILFORD, November 2d, 1868.  
My DEAR SIR:—I have used your pills in my family for the past six months, and can cordially recommend them to others.

Respectfully yours,

JNO. A. JEROME,

Rector of St. Mark's Church.

To MR. E. GILL, GREAT BEND, PA.

Mr. E. GILL,

WASHINGTON, D. C.

DEAR SIR:—I have had occasion to test your "Bilious and Liver Pills," and can recommend them to the public as a safe, easy and efficient remedy for all Bilious affections, and a medicine which ought to be found in every house.

Rev. W. H. SIGSTON.

Doct. E. GILL,

NEW-YORK, August, 1872.

SIR:—It is now more than four years since I commenced selling your pills; since then I have sold several gross, and I have never yet seen a single case in which they did not give entire satisfaction. I have used them myself, and in my family, and I consider them equal if not superior to any other preparation for liver complaints.

Very respectfully,

ALLAN POLLOCK.

We, the Undersigned, can, with Thousands of Others, fully

# MÖLLER'S

PUREST NORWEGIAN

## COD LIVER OIL

His Majesty Charles XV, the King of Sweden and Norway, knighted Peter Möller, and conferred upon him the orders of Vasa and St. Olaf, he having produced his Cod Liver Oil of such purity and delicacy as to have gained the first prizes at the great exhibitions of London, Paris, Bergen and Stockholm.

The late Physician to the North London Consumption Hospital, ABBOTTS SMITH, M. D., M. R. C. P., affirms that Möller's Oil is more readily retained by delicate persons, and more efficacious than any other.

Dr. L. A. SAYRE, New York, says:—"Of late years it has become almost impossible to get any Cod Liver Oil that patients can digest, owing to the objectionable mode of procuring and preparing the livers. \* \* \* Möller, of Christiania, Norway, prepares an oil which is perfectly pure, and, in every respect, all that can be wished."—Dr. L. A. Sayre, before Academy of Medicine. See MEDICAL RECORD, December, 1869, p. 447.

Dr. J. MARION SIMS says:—"For some years I had given up the use of Cod Liver Oil altogether; but since my attention was called by Dr. Sayre to Möller's Oil, I have prescribed it almost daily, and have every reason to be perfectly satisfied with it." Sold by Druggists.
